Data Analyst

PROFILE

Data Analyst with over 15 years of experience in SEO and performance marketing, now focused on SQL, Python and Business Intelligence. Solid hands-on practice in data-driven analysis, KPI tracking and visualization, as well as automating reporting processes. Currently completing an AZAV-certified Data Analyst programme. I am looking for an entry-level position where I can apply analytical skills and a strong understanding of business.

PROJECTS

- E-Commerce Cohort & Retention Analysis**
Built monthly cohorts from raw order data to measure customer retention and repeat-purchase behaviour, surfacing where customers drop off. *Tools: SQL (PostgreSQL), Python (Pandas), Jupyter.*
- Marketing Performance Dashboard**
Interactive dashboard unifying traffic, ad spend and conversion KPIs in a single view, replacing manual weekly reports. *Tools: Power BI, Looker Studio, Google Analytics.*
- Product Analytics: Funnel & Churn Analysis**
End-to-end analysis of a user funnel, identifying the largest drop-off step and quantifying churn drivers using SQL window functions. *Tools: SQL, Python, Tableau.*
- Reporting Automation**
Automated a recurring sales report with Python and the Google Sheets API — cutting a manual process from hours to minutes. *Tools: Python (Pandas), Google Sheets API.*

EXPERIENCE

- Project Manager & Team Lead** Sep 2021 – Jun 2022
